SmoothRx just celebrated the two-year anniversary of the launch of their best-selling scar removal cream. As the new year begins, SmoothRx announced plans in development to give back to their customers. Company spokesperson Ashley Royal took time to talk about the palms.

"There are companies out there charging over \$30 or more for 1 ounce of scar cream. How many customers can afford that? These expensive creams do not come with better results, just a higher price tag," explained company spokesperson Ashley Royal. "We understand that a quality scar removal cream does cost money. Our cream may not be the cheapest cream on the market, but we want it to be the best cream at an affordable price point. We also understand that the cream works best when used on a regular, consistent basis. Our goal is to provide these repeat customers an additional discount on their scar removal cream."

A 4-ounce bottle of SmoothRx scar cream is currently selling for \$19.95 on Amazon.com. The cream is made of all-natural, high-quality ingredients that include mango butter, organic olive oil, shea butter, rose hip seed oil, cocoa butter, and grapefruit seed extract. These natural ingredients help ensure the cream is safe for sensitive skin and has a pleasant smell. The cream can be used to help fade scar caused by spider veins, stretch marks, injury, acne or burn scars and help the skin look younger and healthy.

Customers have applauded the proven results of the SmoothRx scar cream and have left over 170 reviews of the product on Amazon.com, the exclusive selling partner for the SmoothRx scar cream. One verified purchaser wrote, "It works! I've been using this cream on my face to help fade away my acne scars for a little over a month, and so far it's working! The scars I had when I first started using this cream are a lot less dark, and some are even gone. This cream also makes a great moisturizer. I have dry skin, and if I don't use a good moisturizer I break out (on my face), and with this cream, I've noticed my breakouts aren't as bad. Works wonders for me, I love it and will be buying more even if I don't have scars/marks I want to get rid of."

The SmoothRx scar removal cream is currently on sale for \$19.95 for a 4-ounce container. Any order over \$49 will ship for free. Any customer not completely satisfied with the SmoothRx scar cream can return it for a full refund.
