

## **Bone Densitometers Market Trends, Drivers, Strategies, Applications and Competitive Landscape by Forecasts to 2022**

*Bone Densitometers Market Information, type (central scanners), technology (quantitative computed tomography), technology (radiographic absorptiometry ) by Forecast to 2022*

Bone Densitometers Market Information, type (central scanners), technology (quantitative computed tomography), technology (radiographic absorptiometry ) by Forecast to 2022 Pune, India - March 16, 2017 /MarketersMedia/ -- Market Highlights:

Bone Densitometry Market Is A Technology used by the orthopedic surgeons to determine or measure the bone material density of a patient. Currently, bone densitometry tests are the only accurate measurements of bone mass and fracture risk. Many a times risk factors for osteoporosis based on medical history or physical examination are not good predictors of bone mass. These equipments ranges from smaller, less expensive peripheral diagnosis units, to larger Dual-Energy X-ray Absorptiometry (DEXA) tables that provide the gold standard in Bone Mineral Density (BMD). The Bone Densitometer Market is growing steadily. This is attributed to the factors such as; increasing number of cases of osteoporosis. For instance, in the United States, osteoporosis affects more than 25 million people and is associated with more than 1.3 million fractures annually. Moreover, introduction of integrated digital detectors and computer-assisted densitometers has shown reduced measurement time which has fueled the growth of the global bone densitometer market. However, apart from the factors leading to the growth of this market, there are some restraints hampering the market growth such as increasing prices of the instruments due to fluctuating economies.

Test the market data and market information presented through more than 60 market data tables and figures spread over more than 84 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Bone Densitometers Market from 2013 to 2022".

Major Key Players:

- o General Electric Company
- o Hologic, Inc., Swissray
- o Osteosys Co. Ltd, MedWrench
- o LLC, Schick Sirona
- o DMS Imaging
- o Echolight S.p.a.
- o Aarna Systems
- o Wellness Pvt. Ltd.
- o Tecnicare Healthcare Company

Regional Analysis:

Depending on geographic region, bone densitometers market is segmented into four key regions: Americas, Europe, Asia Pacific, and Middle East & Africa. Globally Americas is the largest market for bone densitometers due to the high prevalence of bone diseases because of some lifestyle-associated habits and steady technological advancement has projected high growth of bone densitometers market in this region. Europe is the second-largest market for bone densitometers. Asia pacific region is expected to be fastest growing region in bone densitometers market.

Although, these countries markets are expected to be mature, the industry is likely to find stagnant

growth for this market after few years. High adoption rate for improved products and services for early diagnosis of bone loss will enhance the growth of this market. On the other hand, Asia Pacific region will be with China, India, Japan, Republic of Korea, Australia and others its forefront will lead the market further to next 7 years and will continue with this trend through the forecast period.

Study Objectives Global Bone Densitometers Market:

- o To provide detail analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the global Bone Densitometers market
- o To provide insights about factors affecting the market growth
- o To analyze the market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- o To provide country level analysis of the market with respect to the current market size and future prospective
- o To provide country level analysis of the market for segments by type, by technology, by end users and other sub segments.
- o To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market

Intended Audience:

- o Bone Densitometer Manufacturers
- o Bone Densitometer Suppliers
- o Private Research Laboratories
- o Research and Development (R&D) Companies
- o Market Research and Consulting Service Providers
- o Government Research Laboratories
- o Contract Manufacturing Organizations

Segmentation:

Global Bone Densitometers market has been segmented on the basis of type which comprises of central scanners, peripheral scanners and others. On the basis of technology; market is segmented into quantitative computed tomography (QCT), radiographic absorptiometry (RA), single x-ray absorptiometry (SXA), dual-energy x-ray absorptiometry (DXA) and others. On the basis of end users; market is segmented hospitals, orthopedic clinics, academic & research institutes and others.

The report for Global Bone Densitometers Market of Market Research Future comprises extensive primary research along with the detail analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market.

Table of Contents

1 Introduction

1.1 Definition

1.2 Scope Of Study

1.3 Research Objective

1.4 Assumptions & Limitations

1.5 Market Structure:

- 2 Research Methodology
  - 2.1 Research Process
  - 2.2 Primary Research
  - 2.3 Secondary Research
- 3 Market Dynamics
  - 3.1 Drivers
  - 3.2 Restraints
  - 3.3 Opportunities
  - 3.4 Challenges
  - 3.5 Macroeconomic Indicators
- 4 Market Factor Analysis
  - 4.1 Porter's Five Forces Model
    - 4.1.1 Bargaining Power Of Suppliers
    - 4.1.2 Bargaining Power Of Customer
    - 4.1.3 Intensity Of Competitor's
    - 4.1.4 Threat Of New Entrants
- 5 Global Bone Densitometer Market, By Type
  - 5.1 Introduction
    - 5.1.1 Central Scanners
    - 5.1.2 Peripheral Scanners
    - 5.1.3 Others

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
