

Anti - Neoplastic Agents Market is Expected to Grow at a CAGR of 8% by 2022

Global Anti-Neoplastic Agents Market Information, by type (alkylating and alkylating-like agents, antimetabolites, antitumor antibiotics, plant alkaloids, hormonal agents, and miscellaneous agents), by end user (hospitals, clinics, research institutes, cancer rehabilitation centers and others) - Forecast to 2022

Global Anti-Neoplastic Agents Market Information, by type (alkylating and alkylating-like agents, antimetabolites, antitumor antibiotics, plant alkaloids, hormonal agents, and miscellaneous agents), by end user (hospitals, clinics, research institutes, cancer rehabilitation centers and others) - Forecast to 2022 Pune, India - March 16, 2017 /MarketMedia/ -- Market research future published a half-cooked research report on global anti-neoplastic agents market. The global anti-neoplastic agents market is expected to grow at a CAGR of ~8.0% during the period 2016 to 2022.

Test the market data and market information presented through more than 60 market data tables and figures spread over 85 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on "Anti - Neoplastic Agents Market Research Report - Global Forecast to 2022".

Market Highlights:

There is continues rise in the cancer population every year which will reach around 3.6 million new cancer cases worldwide by 2030 according to Cancer Research UK. As per National Cancer Institute, it has been estimated that 1,685,210 new cases of cancer will be diagnosed in the United States and 595,690 people will die from the disease in year 2016. The increasing number of cancer cases surged the demand for anti-neoplastic agents due to rising need for the treatment of malignant neoplasms. These anti-neoplastic agents has become first line of therapy for the treatment of cancer. These agents prevents the maturing and multiplication of neoplasms in the body. They travel into the human body and destroys the cells which are cancerous in nature. These drugs/agents are used for different cancers and are used in conjunction with surgery, chemotherapy or immunotherapy for many solid tumors. These agents restrict the replication of new DNA by hindering the genetic material or by damaging the DNA with the alteration in the genetic arrangement of the DNA.

The market for anti-neoplastic agents is growing steadily. This is attributed to the factors such as; increasing prevalence of cancer. Moreover, introduction of personalized medicines has fueled the growth of the global anti-neoplastic agents market. However apart from the factors leading to the growth of this market, there are some restraints hampering the market growth such as diverse nature of cancer and high cost incur for the development neoplastic agents.

Key Players of Anti-Neoplastic Agents Market:

- o Amgen Inc.
- o Boehringer Ingelheim GmbH
- o F. Hoffmann-La Roche Ltd
- o Bayer AG
- o Aspen Holdings
- o Pfizer Inc.
- o Bristol-Myers Squibb Company

- o Baxter Healthcare Corporation
- o Teva pharmaceutical Industries Ltd
- o Genentech Inc., AbbVie Inc.

Anti-Neoplastic Agents Market Analysis:

The global anti-neoplastic agents market has been evaluated as a growing market and it is expected that the market will touch high growth figures in future. The global anti-neoplastic agents market is expected to grow with CAGR of ~8.0% during the forecasted period. As many prominent players in this market are investing money for research and development to find the effective treatments for various types of cancers which has derived the growth of the market. Also, increasing government funding's to develop advanced drugs and therapies is further expected to impel the growth.

Segmentation:

Global Anti-neoplastic agents market has been segmented on the basis of type which comprises alkylating and alkylating-like agents, antimetabolites, antitumor antibiotics, plant alkaloids, hormonal agents, and miscellaneous agents. On the basis of end users; market is segmented into hospitals, clinics, research institutes, cancer rehabilitation centers and others.

Brief TOC for Anti-Neoplastic Agents:

- 1 Introduction
 - 1.1 Definition
 - 1.2 Scope of Study
 - 1.3 Research Objective
 - 1.4 Assumptions & Limitations
 - 1.5 Market Structure:
- 2 Research Methodology
 - 2.1 Research Process
 - 2.2 Primary Research
 - 2.3 Secondary Research
- 3 Market Dynamics
 - 3.1 Drivers
 - 3.2 Restraints
 - 3.3 Opportunities
 - 3.4 Challenges
 - 3.5 Macroeconomic Indicators
- 4 Market Factor Analysis
 - 4.1 Porter's five forces model
 - 4.1.1 Bargaining Power of suppliers
 - 4.1.2 Bargaining Power of Customer
 - 4.1.3 Intensity of Competitor's
 - 4.1.4 Threat of New Entrants
- 5 Global Anti-Neoplastic Agents Market, by Type
 - 5.1 Introduction
 - 5.1.1 Alkylating and Alkylating-like Agents
 - 5.1.2 Antimetabolites
 - 5.1.3 Antitumor Antibiotics
 - 5.1.4 Plant Alkaloids
 - 5.1.5 Hormonal Agents
 - 5.1.6 Miscellaneous Agents

Continue...

Regional Analysis:

Depending on geographic region, anti-neoplastic agents market is segmented into four key regions:

Americas, Europe, Asia Pacific, and Middle East & Africa. Globally, Americas is the largest market for anti-neoplastic agents due to increasing technological advancement such as personalized medicines to treat the different types of cancers has projected high growth of anti-neoplastic agents market in this region. Europe is the second-largest market for anti-neoplastic agents. Asia Pacific region is expected to be fastest growing region in anti-neoplastic agents market due to increasing investments for the development of drugs and therapies to cure different types of cancers.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
