

Orphan Drug Market Trends, Drivers, Strategies, Applications and Competitive Landscape by Forecasts to 2022

Orphan Drugs Market Information, pharmacological class (Protein Replacement, Enzyme Replacement), Applications (Blood-related disorders, Oncology, Nephrology,) by Forecast to 2022

Orphan Drugs Market Information, pharmacological class (Protein Replacement, Enzyme Replacement), Applications (Blood-related disorders, Oncology, Nephrology,) by Forecast to 2022 Pune, India - March 16, 2017 /MarketersMedia/ -- Market Highlights:

Orphan Drugs Market are used for the treatment of rare diseases and disorders that affects a small percentage of the population.

The orphan drug market is characterised by huge price margin which guarantees an excellent rate of return. Severe lack of effective substitute and the inelastic nature of demand leads to dominance of the supplier. This coupled with government incentives for Orphan Drugs Market is make it a high risk and high return market. The orphan drug market favours companies with expertise and a strong research and development pipeline.

Thus the strategy of most companies revolve around more for more and nothing for less. The market is also extremely sensitive to technological disruptions and is highly volatile as only a few drugs dominate the market. Thus the market is extremely unitary with only a small number of companies.

Test the market data and market information presented through more than 60 market data tables and figures spread more than 84 numbers of pages of the project report. Avail the in-depth table of content toc & market synopsis on "Global Orphan Drugs Market From 2013 To 2022"

Major Key Players:

- o Hoffmann- La Roche
- o Celgene Corporation
- o Alexion Pharmaceuticals
- o Inc., Novartis AG
- o Takeda Pharmaceuticals Company Limited
- o Biogen Idec Limited
- o Eli Lilly
- o Bristol-Myers Squibb
- o Vertex pharmaceuticals
- o Inc. Bayer AG, Sanofi
- o Johnson & Johnson.

Study Objectives Global Orphan Drugs Market:

- o To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the global orphan drugs market
- o To provide insights about factors affecting the market growth
- o To analyze the market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific, and Middle East & Africa.
- o To provide country level analysis of the market with respect to the current market size and future

prospective

- o To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market

- o To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments globally.

Regional Analysis:

Depending on geographic region, Orphan drug market is segmented into four key regions: Americas, Europe, Asia Pacific, and Middle East & Africa. Globally developed countries led by North America is the largest market for Orphan drugs. Europe is the second-largest market for orphan drugs. The orphan drug market is likely to be led by these developed nations in the near future with developing regions such as Asia pacific region and Middle East & Africa providing faster growth rates.

Segmentation:

Global Orphan drugs market has been segmented on the basis of pharmacological class which comprises protein replacement, enzyme replacement, gene and chromosome expression etc. On the basis of application; market is segmented into Blood-related disorders, neurology, oncology, nephrology and infectious diseases. On the basis of technology into DNA recombination, transgenic etc; and by source into Non-biological orphan drugs and Biological orphan drugs.

The report for Global Orphan Drugs Market of Market Research Future comprises extensive primary research along with the detail analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different markets segments and regions.

Intended Audience:

- o Global orphan drugs manufacturers
- o Global orphan drugs suppliers
- o Research and development Laboratories
- o Market Research and Consulting Service Providers

Table of Contents

1 Introduction

1.1 Definition

1.2 Scope of Study

1.3 Research Objective

1.4 Assumptions & Limitations

1.5 Market Structure

2 Research Methodology

2.1 Research Process

2.2 Primary Research

2.3 Secondary Research

3 Market Dynamics

3.1 Drivers

3.2 Restraints

3.3 Opportunities

3.4 Challenges

3.5 Macroeconomic Indicators

4 Market Factor Analysis

4.1 Porter's five forces model

4.1.1 Bargaining Power of suppliers

4.1.2 Bargaining Power of Customer

4.1.3 Intensity of Competitor's

4.1.4 Threat of New Entrants

5 Global Orphan drugs Market, by Application

5.1 Introduction

5.1.1 Blood-related disorders

5.1.2 Oncology

5.1.3 Neurology

5.1.4 Nephrology and infectious diseases

5.1.5 Other
