

Transformer Monitoring System Market is Expected to Grow at a CAGR of 12% by 2022

Global Transformer Monitoring System Market Information Report by Type (Hardware Solutions, Software Solutions), By Service (Oil/Gas Monitoring, Bushing Monitoring and Others), By Application (Distribution Transformers, Power Transformers and Others) and By Region - Forecast to 2022

Global Transformer Monitoring System Market Information Report by Type (Hardware Solutions, Software Solutions), By Service (Oil/Gas Monitoring, Bushing Monitoring and Others), By Application (Distribution Transformers, Power Transformers and Others) and By Region - Forecast to 2022 Pune, India - March 16, 2017 /MarketResearchFuture/ -- Market research future published a half cooked research report on Global Transformer monitoring system market. The Transformer monitoring system market is expected to grow over the CAGR of around 12% during the period 2016 to 2022.

Market Highlights:

The global transformer monitoring system market is growing due to its enhanced features such as improving safety and providing reduction in cost. Transformer monitoring systems provide real time monitoring of the transformer functioning, which further contributes to the growth of the market. Huge investments into digitization and smart grids are expected to further drive the demand for transformer monitoring systems. The ability of transformer monitoring systems to provide early intimation in case of malfunctioning of the transformers, also contributes to the growth of the market. The abilities of transformer monitoring systems to lower the risk in case of expensive power outages, to reduce on-site inspection, and to improve the life of the transformers help in improving preventive maintenance and faster reaction in times of failures.

Key Players of Transformer Monitoring System Market:

- o ABB automation company (Switzerland,)
- o General Electric Company (U.S.)
- o Schneider Electric SE (France)
- o Siemens AG (Germany)
- o Advanced Power AG (Switzerland)
- o BPL Global LLC (U.S.)
- o Crompton Greaves Ltd. (India)
- o Dynamic Ratings (U.S.)
- o Eaton Corporation Plc. (Republic of Ireland)
- o Echelon Corporation (U.S.)
- o Elster Group SE (Germany)
- o Hyosung Corporation (South Korea)

Market Research Analysis:

Among all applications, the power transformer segment in the transformer monitoring system market is expected to grow, owing to the strict government regulations for control of transmission networks and monitoring. Among all services, oil and gas monitoring is the most widely used monitoring services for transformers. The rising applications of transformer monitoring system in the oil and gas industry is driving the demand for transformer monitoring systems.

The Asia Pacific region is expected to dominate the global transformer monitoring solutions market

during the forecast period, owing to rapid pace of power utilities and increasing incorporation of monitoring solutions into their existing transformers. Developing nations such as India and China are expected to foster the need for efficient electric power supply, which is expected to result in market growth during the forecast period.

Scope of the Report:

This study provides an overview of the Global Transformer monitoring system market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the Global Transformer monitoring system market by its type, service, application and region.

By Type

- o Hardware Solutions
- o Software Solutions

By Service

- o Oil/Gas Monitoring
- o Bushing Monitoring
- o Others

By Application

- o Distribution Transformers
- o Power Transformers
- o Others

By Region

- o North America
- o Asia Pacific
- o Europe
- o Rest of the World

Brief TOC for Transformer Monitoring System Market:

- 1 Executive Summary
- 2 Research Methodology
 - 2.1 Scope of the Study
 - 2.1.1 Definition
 - 2.1.2 Research Objective
 - 2.1.3 Assumptions
 - 2.1.4 Limitations
 - 2.2 Research Process
 - 2.2.1 Primary Research
 - 2.2.2 Secondary Research
 - 2.3 Market size Estimation
 - 2.4 Forecast Model
- 3 Market Dynamics
 - 3.1 Market Drivers
 - 3.2 Market Inhibitors
 - 3.3 Supply/Value Chain Analysis
 - 3.4 Porter's Five Forces Analysis
- 4 Global Transformer Monitoring System Market, By Type
 - 4.1 Hardware Solutions
 - 4.2 Software Solutions

5 Global Transformer Monitoring System Market, By Service

5.1 Oil/Gas Monitoring

5.2 Bushing Monitoring

5.3 Others

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
