Market Research Analysis

Based on the drive types, the battery operated industrial vehicle segment is expected to be the highest growing segment. The battery operated industrial vehicles are widely adopted as they are environment friendly, efficient and reliable. Small warehouses greatly adopt battery operated industrial vehicles due to their compactness. Battery operated industrial vehicles overcome the disadvantages of traditional vehicles such as gas-powered and internal combustion engine-driven industrial vehicles which further helps in the growth of battery operated industrial vehicles.

Scope of the Report

This study provides an overview of the Global industrial vehicle market, tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region.

By Product type

- o Forklift
- o Tow Tractor
- o Aisle Truck

- o Container Handler
- o Others

By drive type

- o Internal Combustion Engine
- o Battery-Operated
- o Gas-Powered
- o Others

By Application

- o Industrial
- o Cargo
- o Others

By Region

- o North America
- o Asia Pacific
- o Europe
- o Rest of the World
