

Software Testing Market 2017 by Technology, Software testing category, End-user, Analysis and Forecast To 2021

Global Software Testing Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years.

Global Software Testing Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. March 17, 2017 /MarketMedia/ -- Software testing is a process to validate the different components of system and application software to detect errors in the development of high-quality software products. The software testing process follows the software testing life cycle (STLC) protocols to test the validity of software products. Software testing tools, solutions, and services are subscribed by software developers across a range of industry verticals to build high-quality software within a limited period.

Publisher's analysts forecast the global software testing market to grow at a CAGR of 14.4% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global software testing market for 2017-2021. To calculate the market size, the report considers the revenue generated from software testing services such as application and product testing services offered to large, SMBs, and government organizations.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Publisher's report, Global Software Testing Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Accenture
- Capgemini
- IBM
- Wipro

Other prominent vendors

- Atos
- CSC
- Cigniti Technologies
- Deloitte
- Gallop Solutions
- Infosys
- NTT DATA
- Steria

- Tech Mahindra
- UST Global

Market driver

- Increase in agile testing services and test automation services.
- For a full, detailed list, view our report

Market challenge

- Cyber security concerns in cloud-based testing environment.
- For a full, detailed list, view our report

Market trend

- Increased adoption of crowdsourced testing.
- For a full, detailed list, view our report
