Gary Michaels co-owner Michael Littman traveled through South and Central Asia to handpick jewelry and gemstones for these collections. This overseas sourcing strategy has allowed Gary Michaels to offer many high-quality items at prices significantly lower than other jewelers. Customers across the globe are drawn to the latest line of high quality designs intended to suit every budget when purchasing jewelry within Monmouth County

"Direct overseas sourcing differentiates us from most jewelers in the country. We're able to showcase very special products at heavily reduced prices. There is nothing I like more than delivering top-notch diamonds, gemstones and fine jewelry to our customers at the lowest prices. Discovering exceptional merchandise for our clients is a long process that begins in faraway lands but it's ultimately very rewarding." Littman stated.

The jeweler noted a number of exemplary pieces he recently identified overseas and added to these new collections:

Spectacular multi-coil diamond and gemstone rings from Hong Kong that are comfortable and flexible with prices ranging from \$500.

Diamond necklaces and bracelets with gems threaded on to gold chains by lasers, minimizing the amount of metal showing.

Gorgeous Ceylon sapphires and Burmese rubies

High-quality polished diamonds of all sizes from Mumbai

Rare emeralds and tanzanite gemstones from Jaipur

Gary Michaels was also able to acquire a collection of magnificent semi-precious stones to incorporate into their designs. Sourcing semi-precious stones directly from the mines allows the jeweler to provide the highest quality stones at a fraction of the cost available through domestic channels. This means the diamond in Manalapan at Gary Michaels Fine Jewelry is of the highest quality and best price.
