

At 2.50% CAGR the Military Satellite Market to Reach US\$10.1 Billion by 2027

The Global Military Satellite Market 2017-2027 report says cumulative market for global expenditure on Military Satellite systems is valued at US\$93.3 billion over the forecast period. The market is expected to be led by North America with a share of 39.2% over the forecast period.

The Global Military Satellite Market 2017-2027 report says cumulative market for global expenditure on Military Satellite systems is valued at US\$93.3 billion over the forecast period. The market is expected to be led by North America with a share of 39.2% over the forecast period. Pune, India - March 20, 2017 /MarketersMedia/ -- Global expenditure on Military Satellite systems market is expected to show robust growth over the forecast period, primarily due to the increased importance of Military Satellite systems in modern or fourth-generation warfare.

Browse 13 leading company's competitive analysis, spread across 138 pages available @ <http://www.reportsnreports.com/reports/916010-the-global-military-satellite-market-2017-2027.html> . The global Military Satellite Systems market is expected to be led by North America with a share of 39.2% over the forecast period, followed by Europe with 29.3% and Asia-Pacific with a share of 21.1%. The Middle Eastern market is expected to account for 5.5%, followed by Latin America with 3.3%, and the African markets with a share of 1.6%.

Over the forecast period, governments are expected to invest in cheaper alternatives such as microsatellites. This class of satellites is much cheaper and faster to design, build, and launch, although the reliability and longevity of these systems has not been proved yet. One of the reasons for their rapid development timelines is the use of commercial-off-the-shelf (COTS) technology, which makes the assembly of these satellites simple and fast. With pressure on a number of major defense spending countries to reduce defense spending, these satellites are expected to be a major area for investment as they accomplish most of the tasks performed by traditional satellites.

The report "The Global Military Satellite Market 2017-2027" offers detailed analysis of the global Military Satellite market over the next 10 years, and provides market size forecasts. Furthermore, it covers key technological and market trends in the industry and analyzes factors influencing demand for Military Satellite systems. Additionally, the report highlights challenges faced by industry participants.

In particular, it provides an in-depth analysis of the following -

Overview: Snapshot of the Military Satellite market during 2017-2027, including highlights of the demand drivers, trends, and challenges. It also provides a snapshot of the expenditure with respect to regions as well as segments

Market Dynamics: Insights into the technological developments in the Military Satellite market and a detailed analysis of the changing preferences of governments around the world. It also analyzes changing industry structure trends and the challenges faced by the industry participants

Segment Analysis: Insights into the Military Satellite market from a segmental perspective and a detailed analysis of factors influencing the market for each segment

Regional Review: Insights into modernization patterns and budgetary allocation for the top countries within a region

Regional Analysis: Insights into the Military Satellite market from a regional perspective and a detailed analysis of factors influencing the market for each region

Trend Analysis - Key Defense Market: Analysis of the key markets in each region, providing an analysis of the Military Satellite segments expected to be in demand in each region

Key Program Analysis: Details of the top programs in each segment expected to be executed during the forecast period

Competitive landscape analysis: Analysis of competitive landscape of the global Military Satellite industry. It provides an overview of key defense companies, together with insights such as key alliances, strategic initiatives, and a brief financial analysis.
