The SmoothRx acne scar removal cream is the #1 selling acne scar treatment cream on Amazon.com. To celebrate this accomplishment, SmoothRx announced this week that their acne scar cream would remain the sole product made by their company.

"Over the years, we have invested a significant amount of time and resources into the development of this acne scar removal cream," stated company spokesperson Ashley Royal. "We want to continue these efforts in hopes of helping our product reach as many people as possible. This can be best accomplished through focus and concentration."

The SmoothRx stretch mark and scar removal cream is made of all-natural ingredients, vitamins and essential oils that are safe for sensitive skin. The ingredients include shea butter, aloe barbadensis leaf juice, organic olive oil, jojoba oil, cocoa butter, rose hip seed oil, mango butter, orange oil and grapefruit seed extract. The cream is moisturizing and improves the elasticity of the skin. This can help prevent the formation of new scars and stretch marks, while it is treating the current blemishes. Over 170 customers have written reviews for the SmoothRx best scar cream on Amazon.com. One five-star reviewer wrote, "I was very skeptical because my scars are old and still prominent. However, this is such a good moisturizer, that the skin and scar area have softened and the prominence of the scars have reduced in appearance. The dog bite scar on my face is the one that bothers me the most. However, I use this cream, and when I put on makeup, it covers the scar nicely. My stomach stretch marks are also more pliable and look lots better than they have. I will keep using this cream and see where it goes, but the early results look very good. I am glad I tried it."

The SmoothRx scar removal cream makes the perfect acne scar treatment solution and is sold exclusively on Amazon.com. The cream is currently priced at \$19.95 for a 4-ounce container. Free shipping is available on all Amazon purchases over \$49.
