

## **Global Digital Forensics Market Analysis, Scope, Stake, Progress, Trends and Forecast up to 2022**

*Global Digital Forensics Market Information, by Types (Computer Forensics, Network Forensics, Mobile Device Forensics), by Components (Hardware, Software), by Industry Verticals (Government Agencies, Private Security, Military & Defense) - Forecast 2016-2022*

Global Digital Forensics Market Information, by Types (Computer Forensics, Network Forensics, Mobile Device Forensics), by Components (Hardware, Software), by Industry Verticals (Government Agencies, Private Security, Military & Defense) - Forecast 2016-2022 Pune, India - March 20, 2017 /MarketersMedia/ -- Market Highlights

Digital forensics also known as digital forensic science is a branch of forensic science encompassing the recovery and investigation of material found in digital devices, often in relation to computer crime. The term digital forensics was originally used as a synonym for computer forensics but has expanded to cover investigation of all devices capable of storing digital data.

"Digital forensic or digital forensic science is a scientific method of performing certain activities such as preservation, identification, analysis & interpretation, of digital evidence derived from digital source." the scholar of Market Research Future Simplifies the definition for us.

Market Research Future offers a well descriptive Market Research Report on "Global Digital Forensics Market" empowering you to browse through the full Market Analysis, Opportunities, Price, Growth, Trends and the market forecast up to the year 2022.

Major Key players

- o PerkinElmer, Inc., (U.S.)
- o Guidance Software (U.S.)
- o AccessData Group (U.S.)
- o Cellmark (UK), FireEye, Inc. (U.S.)
- o Binary Intelligence LLC (U.S.)
- o Global Digital Forensics (U.S.)
- o LogRhythm (U.S.)
- o CCL Solutions Group Ltd. (U.K.)
- o Cellebrite (Israel)

The Report empowers you to find out:

- o How the market revenue is developing globally.
- o How the market revenue is developing in key segments
- o Who the emerging market leaders are (market share)
- o What the current main trends are
- o Rationales of the latest M&A transactions

Market Synopsis & Scenario:

With roots in the personal computing revolution of the late 1970s and early 1980s, the discipline evolved in a haphazard manner during the 1990s, and it was not until the early 21st century that national policies emerged. A saddening fact is that the Digital Forensics Market growth is directly proportionate to the Crimes may it be cyber or non-cyber-crimes.

With increasing crime rate and criminals resorting to the latest technology for committing the crimes, Forensic Aid also has to be a digital. Thus the Global digital forensic market has grown to billions in

past decade due to the high proliferation rate of the crimes and has been valued for a substantial amount since the year 2015. Currently, this market is growing with a comprehensive rate of CAGR which is expected to grow to an extravagant amount by the end of forecasted period.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Global Digital Forensics Market Research Report- Forecast to 2022"

Study Objective of Digital Forensics Market

- o To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Digital Forensics Market
- o To provide insights about factors affecting the market growth
- o To analyze the Digital Forensics market based on various factors- value chain analysis, porter's five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- o To provide country level analysis of the market with respect to the current market size and future prospective
- o To provide country level analysis of the market for segment by types, by components, by industry verticals and sub-segments
- o To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- o To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Digital Forensics Market

Regional Analysis:

North America is leading the market of Digital Forensic Science with substantial market share. Existence of major players in this region is supporting the revenue model whereas increasing cybercrimes are one of the key drivers for the market in North America. Cloud technology which is being used in cyber forensics is supporting the market. Europe holds a good market share which is growing with the substantial rate of CAGR. Asia-Pacific Digital Forensic market has been valued in billions in the year 2015. High terrorism activities and cybercrimes are key driver for the growth of digital forensic market in Asia-Pacific region.

Growing economy of Asian countries is also supporting the wide adoption of digital forensic. It is expected that Asia-Pacific Digital Forensic market will reach to a substantial market size of by the end of forecasted period i.e. 2022.

Market Segmentation

Segmentation by Types

- o Computer Forensics
- o Network Forensics
- o Mobile Device Forensics

Segmentation by System Deployment

- o On Premise
- o On Cloud

Segmentation by Components

- o Hardware (Systems, Network Devices, Cables, Adapters)

o Software.

Segmentation by Industry Verticals

o Government Agencies

o Private Security

o Military & Defense

o Healthcare

o Telecommunication
