Global Gluten-Free Food Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. March 20, 2017 /MarketMedia/ -- Gluten is a protein composite primarily found in wheat, barley, rye, triticale, and some oats. Foods made with these grains also contain gluten, which include bread, bagels, cereals, crackers, cakes, cookies, pasta, and pizza. Gluten-free food products do not contain gluten-rich grains such as spelt wheat. A gluten-free diet is prescribed for people with celiac disease. Gluten-free food products are easier to digest and healthier.

Publisher's analysts forecast the global gluten-free food market to grow at a CAGR of 11.62% during the period 2017-2021.
