

Sunrise Pillow Launches On Kickstarter

Sunrise Partners With Funded Today To Bring In More Pledges

Sunrise Partners With Funded Today To Bring In More Pledges Los Angeles, United States - April 13, 2017 /FundedToday/ -- The Sunrise Pillow has launched a Kickstarter campaign for their unique and multi-function pillow. They have partnered with Funded Today to bring their product to a wider audience and hopefully bring in more pledges for the remaining month of their campaign.

About The Sunrise Pillow

The Sunrise Pillow allows users to get a restful sleep by providing a few services: it tracks sleep, wakes users up with natural light, streams music and acts as a reinvented alarm clock. The sleep tracking sensors are embedded underneath memory foam, and users can track their sleep and set alarms through a smartphone-compatible app. The pillow mimics the light of the rising sun to bring users out of sleep in a natural and non-abrupt way. The pillow is equipped with a smart alarm, waking users up in their lightest phase of sleep to ensure enhanced focus and alertness.

Pricing and Availability

The Sunrise Pillow is available to back now on Kickstarter. Once the project ends, the pillow is set to be produced and shipped to all backers worldwide by October 2017. The starting price for one pillow is \$119.
