

Nickel Hydroxide Industry and Global Forecast to 2021

Global: Nickel Hydroxide Market Information by Applications - Forecast To 2021

Global: Nickel Hydroxide Market Information by Applications - Forecast To 2021 Pune, India - April 13, 2017 /MarketResearchFuture/ -- This report states that the global nickel hydroxide market has seen a positive growth in the past few years and it is estimated that the market will grow significantly in near future. Nickel hydroxide is an integral chemical compound which is mostly used in batteries manufacturing. As per the report, it has been analyzed that increasing demand for batteries will simultaneously increase the demand for nickel hydroxide. From the application segment, the mid-high rate batteries has accounted the largest share in 2016 followed by pocket batteries. Geographically, China ranks top in productions and capacity.

Study Objectives of Nickel Hydroxide Market

- o To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Nickel Hydroxide Market
- o To provide insights about factors affecting the market growth
- o To Analyse the Global Nickel Hydroxide Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- o To provide country-level analysis of the market with respect to the current market size and future prospective
- o To provide country-level analysis of the market for segment by application and regions
- o To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- o To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Nickel Hydroxide Market.

The leading market players in the global Nickel Hydroxide market primarily include Norilsk Nickel, Sumitomo Metal Mining Co., Ltd, ERAMET, Tanaka Chemical Corporation, Jiangmen chansun Umicore Industry Co., Ltd, Henan Kelong New Energy Co., Ltd, Jilin Jien Nickel Industry Co., LTD, ALT Cobalt & Nickel Products (Dalian) Co., Ltd and others.

The reports also covers brief analysis of Geographical Region includes:

North America

- o US

Europe

Asia - Pacific

- o China

- o Japan

Rest of the World

The market report for Nickel Hydroxide of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry

performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
