A new website has been launched by Washington DC based Dr Luz Lopez Driscoll, DDS. The dental team under Dr Lopez Driscoll offer a full range of general, preventative, restorative and cosmetic dentistry procedures. Washington, United States - April 14, 2017 /PressCable/ --

Luz Lopez Driscoll, DDS has launched a new website. The dental experts, based in Washington DC, offer cosmetic dentistry, restorative dentistry, preventive dentistry and general dentistry.

For more information please visit: <https://luzlopezdriscoll.dental>.

Dr Luz Lopez Driscoll and her team offer over 27 years of experience to their patients. They listen closely to their dental concerns, answer their questions and provide them with high quality dental care. Their office is also fluent in Spanish and Turkish.

Dr Lopez Driscoll has a reputation for patient satisfaction and this is reflected in her being honored at "TOP AREA DENTIST" and being nominated year after year in Washingtonian magazine. This special recognition is significant because the nominations come from her peers.

Dr Lopez Driscoll and her skilled dental staff provide a full range of general dentistry, preventative dentistry, restorative dentistry and cosmetic dentistry to their patients. General and preventative dentistry keeps patients mouths healthy and helps to prevent periodontal disease and its symptoms which include bleeding gums and bad breath.

If periodontal disease is caught early then treatment is easier and less invasive. The site explains that it is easily prevented with proper hygiene, home care and professional treatment that can be found with Dr Lopez Driscoll and her team. General and preventative dentistry procedures include root canals, fillings and oral cancer screening.

Restorative dental procedures not only rejuvenates peoples smiles but it also helps with functions such as eating and helps to keep the bones and soft tissue of the mouth from shrinking away. Restorative treatments include implants, dentures, bridges, crowns and inlays.

The appearance of teeth can affect a person's happiness and confidence. Dr Lopez Driscoll offers a variety of treatments that can correct crooked teeth, mend gaps and chips, and fix missing and stained teeth with a customized treatment plan. Procedures include porcelain veneers, ZOOM! tooth whitening and tooth colored fillings.

Those wishing to find out more information can visit the website on the link provided above.
