Free Invisalign consultations have been announced by Brickwalk Dental, based in Fairfield, CT. The dental experts offer their patients the latest in general, preventative and cosmetic dental treatments. Fairfield, United States - April 14, 2017 /PressCable/ --

Brickwalk Dental have announced they are now offering patients free Invisalign consultations. The Fairfield, CT, based dental experts offer their patients a full range of general and cosmetic dentistry services.

For more information please visit: <http://brickwalkdental.com>.

At Brickwalk Dental, Dr Mariana Conant offers her patients her experience, skill and a friendly approach to dentistry. Dr Conant and her team aim to ensure that every patient receives the best treatment possible and that their comfort is always their first concern.

They are now offering their patients free Invisalign consultations which are worth \$200. Invisalign braces are invisible braces that gently correct the positions of crooked teeth leaving patients with more regular smiles. They designed to be almost invisible to allow patients to correct their teeth without obvious braces disrupting their lives.

Other services provided by the dental team include porcelain veneers, sealants, teeth whitening and dental implants among others. These restorative and cosmetic procedures not only improve the aesthetic appearance of patients smile but they also help improve mouth functions such as eating by reducing sensitivity and providing the ability to chew.

The dental experts offer personalized care alongside the most up to date modern techniques giving their patients the smile they have always wanted. Brickwalk Dental provides general dentistry, with a focus on disease prevention and patient education for healthy smiles. They explain that the key to optimum dental health is regular exams and routine cleanings and flossing.

They focus on thorough dental exams and provide overall health checks of teeth and gums by taking x-rays and performing oral cancer screening exams. They also keep abreast of their patients overall health by reviewing their medical history in order to provide the absolute best in dental care.
