Mr. Eds Appliance, a local appliance repair company in Albuquerque NM, is announcing the new partnership with 505 Internet Marketing company, an online marketing specialist. This appliance repair company is trying to better connect with the local residents searching online for appliance repair help.

The local search company Brightlocal in a 2016 survey stating that 36% of the American consumers say most consumers are more likely to call or visit a local business that has a website. For the small business owner this statistic can be quite alarming. It shows the business owner that there is a chance that the business could be missing out on one third of the prospective customers in the local area. That is the purpose of the new partnership between Mr. Eds Appliance and 505 Internet Marketing to help Mr. Ed create a better web presence. Through the use of up to date SEO (search engine optimization) techniques, a new website design, powerful web directory listings and other proven promotion strategies, 505 Internet Marketing is helping to assist Mr. Eds Appliance to better reach the prospective customers in the Albuquerque and surrounding area.

Steve Madigan, one of the senior online marketers at 505 Internet Marketing, states "Today, when people are looking for goods and services, most all consumers start with an online search. For the local business to be found in this increasingly digital market place, the business needs to have a strong web presence. 505 Internet Marketing are working with Mr. Eds Appliance to build and promote the new website that is online with the purpose of increasing the online visibility."
