

Global Refractories Market Trends, Size, Share, Strategy, Segmentation Analysis and Forecast to 2022

Refractories Market Information- by Form (Shaped and Unshaped), by type (Fireclay, Silica Brick, High Alumina, Magnesite, and Others) by Forecast to 2022

Refractories Market Information- by Form (Shaped and Unshaped), by type (Fireclay, Silica Brick, High Alumina, Magnesite, and Others) by Forecast to 2022 Pune, India - April 17, 2017 /MarketMedia/ -- Market Highlights:

Globally, the market for Refractories is growing at a CAGR of 4.02% during forecasted period (2016-2022). Refractories is a material that is heat resistant, it provides linings for the heat temperature furnace, reactors and other processing units. Refractories are made of natural and manmade materials, usually nonmetallic or combinations of other compound and minerals.

Refractories Material Market which can resist high temperature without undergoing physical and chemical changes while remaining in contact with molten slag, metal and gases. It is necessary to produce range of refractory materials with different properties to meet range of processing conditions. The refractory range incorporates fired, chemically and carbon bonded materials that are made in different combinations and shapes for diversified applications

Taste the market data and market information presented through more than 50 market data tables and figures spread in 125 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Refractories Market Research Report - Forecast to 2022"

Major Key Players:

- o Saint-Gobain S.A
- o RHI AG
- o Shinagawa Refractories Co. Ltd
- o Krosaki Harima Corporation
- o Corning Incorporated
- o Vesuvius PLC
- o Harbisonwalker International (HWI) Inc
- o Coorstek Incorporated
- o Morgan Advanced Materials PLC

Regional Analysis:

The Asia-Pacific refractories market is expected to grow due to growing application industry. China consumes largest market share in global refractories market. The report estimates the size of the refractories market, both in terms of volume and value. Other regions like India, Indonesia and Brazil are expected to drive the demand owing to lenient regulations by government in setting up industries and producing large amounts of products to meet growing population demand.

North America is expected to grow at faster pace, the U.S and Canada are anticipated to have a largest share due to industrial development and government regulations. In-addition, the growing population and increase in construction industries is driving the market in this region. In Europe, UK and Germany are key contributors for this region, refractories market size is growing due to government policies and increase in use of refractories in various application.

Competitive Analysis:

The major players of the market have certain challenges such as various companies do not have their manufacturing located where the region is growing the most in order to prevent this the major players are expanding their business with a focus on growing region. Due to high price raw material

the competitors are facing certain challenges various companies are focusing in house supply of raw materials in order to reduce the burden of high cost of raw materials.

Intended Audience:

- o Manufacturers and distributors of Refractories
- o Suppliers and traders of Refractories
- o Government, associations and industrial bodies.
- o Investors and Trade experts.
- o Consulting in chemical experts.

Segmentation:

The global refractories market is majorly segmented on the basis of form, type and application. Based on form the market is segmented into shaped and unshaped. And on basis of refractories the market is segmented into fireclay, silica brick, high alumina, magnesite, and others. Furthermore, refractories market is segmented into application sector namely, steel, cement, glass, non-ferrous and others.

Table of Contents

- 1 Executive Summary
- 2 Scope of The Report
 - 2.1 Market Definition
 - 2.2 Scope Of The Study
 - 2.2.1 Research Objectives
 - 2.2.2 Assumptions & Limitations
 - 2.3 Markets Structure
- 3 Market Research Methodology
 - 3.1 Research Process
 - 3.2 Secondary Research
 - 3.3 Primary Research
 - 3.4 Forecast Model
- 4 Market Landscape
 - 4.1 Five Forces Analysis
 - 4.1.1 Threat Of New Entrants
 - 4.1.2 Bargaining Power Of Buyers
 - 4.1.3 Threat Of Substitutes
 - 4.1.4 Segment Rivalry
 - 4.2 Value Chain/Supply Chain Of Global Refractories Market

Continued.....

List of Table

- Table 1 World Population By Major Regions (2015 To 2030) (Million)
- Table 2 Global Refractories Market: By Region, 2014-2022 (USD Million)
- Table 3 North America Refractories Market: 2014-2022 (USD Million)
- Table 4 Europe Refractories Market:2014-2022 (USD Million)
- Table 5 Asia-Pacific Refractories Market:2014-2022 (USD Million)

Continued.....

List of Figures

- Figure 1 Global Refractories Market Segmentation
- Figure 2 Forecast Methodology
- Figure 3 Five Forces Analysis Of Global Refractories Market
- Figure 4 Value Chain Of Global Refractories Market
- Figure 5 Share Of Global Refractories Market In 2014, By Country (In %)

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
