Global Workspace Delivery Network Market, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. April 17, 2017 /MarketersMedia/ -- It has been observed that the need for hybrid cloud and pervasive mobility drives the demand for workspace delivery networks. These networks encompass a workspace delivery controller (WDC), which is an application delivery controller (ADC) adapted to the needs of hybrid cloud, mobility, and security and a virtual wide area network (WAN), which provides cost-effective application delivery to branch offices, while optimizing WAN bandwidth.

Publisher's analysts forecast the global workspace delivery network market to grow at a CAGR of 18.42% during the period 2016-2020.
