

Roam Proof Launches Indiegogo Campaign For Kevlar Core Charging Cable

Roam Proof Works With Funded Today To Generate More Pledges

Roam Proof Works With Funded Today To Generate More Pledges
Sundance, UT, United States - April 17, 2017 /FundedToday/ -- Roam Proof has just launched an Indiegogo campaign for The 5-Year Cable, a Kevlar core charging cable meant to withstand almost anything. They have partnered with Funded Today in hopes of attracting more backers to the campaign and reaching their funding goal.

About The Cable

The 5-Year Cable was made with longevity in mind. It's abrasion, water, heat, and chemical-resistant. The cable is made with a 1000D bulletproof Kevlar silk core. It also features a reinforced aluminum casing, making it truly built to last. The 5-Year Cable comes in a four-foot or nine-foot option and with a five-year warranty.

Pricing and Availability

The 5-Year Cable is available to back now on Indiegogo. Roam Proof hopes to hit their funding goal to start production in May. If their goal is reached, the cable will be shipped to all backers worldwide by June 2017. The starting price for one unit is \$15.

To learn more about the 5-Year Cable, or to back the campaign, you can visit their page here:
