

## **Global Spatial Light Modulator Market expected to grow at US ~\$553 million by the end of forecast period 2022**

*Spatial Light Modulator, By Type (Optically Addressed, Electrically Addressed), By Application (Optical, Display, Holographic) - Forecast 2016-2022*

Spatial Light Modulator, By Type (Optically Addressed, Electrically Addressed), By Application (Optical, Display, Holographic) - Forecast 2016-2022 Pune, India - April 17, 2017 /MarketersMedia/ -- SLM or Spatial Light Modulator is a component which imposes spatially varying modulation on beam of a light. Overhead projector in the institutes and organizations are the best example of a Spatial Light Modulator. Some factors which are driving the market of spatial light modulator are growing economy and expansion of organizations as well as implementation of advance technology in education sector. Technological advancement in the field of information technology is also one of the factor supporting the market. Global Spatial Light Modulator Market has been valued at US ~\$215 million in the year 2015 which is expected to grow at US ~\$553 million by the end of forecast period with expected CAGR of ~15%.

Study Objectives of Spatial Light Modulator Market:

- o To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Spatial Light Modulator Market
- o To provide insights about factors affecting the market growth
- o To analyze the Spatial Light Modulator market based on various factors- supply chain analysis, porter's five force analysis etc.
- o To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- o To provide country level analysis of the market with respect to the current market size and future prospective
- o To provide country level analysis of the market for segment by type, by applications and sub-segments.
- o To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- o To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Spatial Light Modulator Market

Intended Audience

- o OEMs
- o Technology Service Providers
- o Investors in Technology and IT
- o Government
- o OEM Technology Solution Providers

Key Players for Spatial Light Modulator Market:

The prominent players in the market of Spatial Light Modulator are- American Electric Power (U.S.), Texas Instruments Inc. (U.S.), Jenoptik AG (Germany) Laser 2000 (UK) Ltd (UK), Forth Dimension Displays (UK), Santec Corporation (U.S.), PerkinElmer, Inc., (U.S.), Holoeye Photonics AG

(Germany), Hamamatsu Photonics (Japan), Meadowlark Optics, Inc (U.S.) among others.

Segments:

Market Research Future has segmented the Spatial Light Modulator into Types and Applications. Types of SLM includes- Optically Addressed SLM and Electrically Addressed SLM whereas the applications of SLM has been identified as Optical, Display, Holographic among others.

Regional Analysis of Spatial Light Modulator Market:

Currently, Asia-Pacific accounts for largest market share due to the growing economy of countries and strong manufacturing presence in China and Japan. North America stands as second biggest market closely followed by Europe.
