

Optical Lens Material Market Growing at a CAGR 7.76% for Silicone hydrogel, Fluoro-Silicone Acrylate, Hydrogel and PMMA by 2021

The Global Optical Lens Material Market report has covered and analysed the potential of Global optical lens material Market and provides statistics and information on market size, shares and growth factors. The report identifies and analyses emerging trends along with major drivers, challenges and opportunities.

The Global Optical Lens Material Market report has covered and analysed the potential of Global optical lens material Market and provides statistics and information on market size, shares and growth factors. The report identifies and analyses emerging trends along with major drivers, challenges and opportunities. Pune, India - April 18, 2017 /MarketersMedia/ -- The Optical Lens Material Market is growing steadily on account of the growing old age population suffering from refractive errors. Today the eye problem is also very common in young age people which prefer for better quality contact lenses. Therefore, leading contact lens manufacturers are growing their market both in developed and developing countries which is leading the growth in material market.

According to Analytics research report, "Global Optical Lens Material Market: Analysis By Type (Soft Lens, Gas Permeable Lens), By Material (Silicone hydrogel, Fluoro-Silicone Acrylate, Hydrogel, PMMA), By Region, By Country (2016-2021) - By Region (North America, Europe, APAC, ROW); By Country (U.S., Canada, Germany, U.K., China, India, Japan, Brazil, U.A.E)", Global Optical Lens Material market is projected to exhibit a CAGR of 7.76% during 2016 - 2021. On the basis of market segment, Global Optical Lens Market has been segmented on (By Types: Soft Contact Lens, Gas Permeable Contact Lens; By Material: Silicone Hydrogel, Fluoro-silicone acrylate, PMMA; By Region: North America, Europe, APAC, and ROW; By Country: U.S., Canada, U.K., Germany, China, Japan, India, Brazil, U.A.E.).

A comprehensive research report created through extensive primary research (inputs from industry experts, companies, stakeholders) and secondary research, the report aims to present the analysis of Global Optical Lens Material Market on the basis of Analysis (By Type - Soft contact lens, Gas Permeable lens); By Material (Silicone Hydrogel, Hydrogel, Fluoro-silicone Acrylate, PMMA); By Region (North America, Europe, APAC, RoW); By Country (U.S., Canada, U.K., Germany, China, Japan, India, Brazil, U.A.E.).

Global increase in vision problem due to excessive use of smart gadgets has led to the growth of Optical lens material market. Because of changing lifestyle and awareness, majority people are going for the better quality contact lens which is overall promoting the rising sales in new advanced contact lens material.

Among the segments, market is expected to be driven by Silicone Hydrogel soft contact lens both in developed and developing countries on account of more oxygen permeability which provide more comfort and ease to adjust. The gas permeable lens material, Fluoro-silicone acrylate is also growing due to its vision clarity especially for the people having astigmatism, presbyopia and other refractive errors. The wide use of scleral lens will promote the growth in Gas Permeable market in the future. North America region remains the major market among all the regions. In the forecast period, European region will witness strong growth driven by the countries such as U.K. and Germany.

Company Analysis in this Report - Menicon, Paragon Vision Sciences, Bausch & Lomb, PPG Optical, OPRI Inc., Benz Research & Development

Scope of the Report

Global Market (Actual Period: 2012-2016, Forecast Period: 2017-2022)

- o Optical Lens Material Market

- o Type of lens Market - Soft Lens, Gas Permeable Lens

- o Type of Material Market - Silicone hydrogel, Fluoro-silicone Acrylate, Hydrogel, PMMA

Regional Markets - N. America, Europe, APAC, RoW (Actual Period: 2012-2016, Forecast Period: 2017-2022)

- o Optical Lens Material Market

- o Type of lens Market - Soft Lens, Gas Permeable Lens

- o Type of Material Market - Silicone hydrogel, Fluoro-silicone Acrylate, Hydrogel, PMMA

Country Analysis - US, Canada, UK, Germany, Japan, China, India, Brazil, U.A.E. (Actual Period: 2012-2016, Forecast Period: 2017-2022)

- o Optical lens Material Market

Other Report Highlights

- o Market Dynamics - Trends, Drivers, Challenges

- o Policy and Regulation
