The book's cover art was created by Russell Brunson and Expert Secrets is being released by Morgan James Publishing.

The Author... Russell Brunson has a background in a lifetime of successful marketing and businesses by being in the trenches. This helped shaped the creation of the book by Russell's journey accumulating knowledge from a mass number of experts creating his passion to change other lives to further grow himself, helping others be as successful as he is...

When asked about why he wrote the book, Brunson said: "To express gratitude for the Experts he has meet in life, who have helped him to become who he is today... to show his amazing kids how to use that knowledge through others, to make this world a better place.

Brunson has hopes that the book will Inspire and show everyone that they have a unique talent and ability, that can change their lives by helping others do the same!... This positive outlook from the author is certainly testament to their optimism considering some of the crazy mishaps during its creation. At one point after 8 months of writing his second book which Russell finds REALLY hard to do, he realised doing a deep first edit, that it was good but not great so he started all over again... he didn't ever imagine doing that?

In a recent interview, the author made a point of thanking Robert Kiyosaki for his foreword contribution, Daegan Smith for his ideas and what Russell learnt about belief, Perry Belcher for

understanding opportunities and status, Dan Kennedy teaching character and communication, Michael Hauge showing story structure, Blair Warren's work in persuasion, Jason Fladlien how to break and rebuild belief patterns, Armand Morin creating the stack, Russell's inner circle and Funnel Hacking and Clickfunnel staff and communities... Julie Eason for her dedication for the better part of a year in helping Russell write this book...

The author also thanked for their part in the creation of the book, saying: "Without Stephen Larsen being a constant sounding board and excitement for the book during this book project... and Julie Eason dedication, it would have never happened!..."
