MELANGE Brings On Funded Today To Widen Audience And Encourage Backers Toronto, Canada - April 18, 2017 /FundedToday/ -- MELANGE has launched a successful Kickstarter campaign for their luxury but affordable bed sheets. They have partnered with Funded Today to bring their product to a wider audience and bring in more pledges.

### About MELANGE

MELANGE linens were made with quality in mind. However, the creators purposely made sure that the sheets would not break the bank. The line features fitted and flat sheets with pillowcases all made from premium long-staple cotton. The sheets fight bacteria, are bleach-safe and suitable for sensitive skin. Melange strives to be transparent in their marketing and pricing, creating wholesome products for an affordable price. The sheets come in grey or white.

### Pricing and Availability

MELANGE is available to back now on Kickstarter. They have partnered with Funded Today to send more backers to the campaign and increase funding. Once the project ends, the product is set to be produced and shipped to all backers worldwide by June 2017. The starting price for a complete set for twin, full or queen sizes starts at \$82.
