

Internet of Things Device Management Market 2017 Outlook and Forecasts 2022 by IoT Device Administration, Monitoring, and Diagnostics

OrbisResearch.com has published new research report on "Internet of Things (IoT) Device Management: IoT Device Administration, Monitoring, and Diagnostics Market Outlook and Forecasts 2017-2022" to its database.

OrbisResearch.com has published new research report on "Internet of Things (IoT) Device Management: IoT Device Administration, Monitoring, and Diagnostics Market Outlook and Forecasts 2017-2022" to its database. Dallas, United States - April 19, 2017 /MarketersMedia/ -- The Internet of Things (IoT) represents a complex system of networks, platforms, interfaces, protocols, devices, and data. IoT devices range from sensors, actuators, gateways, and embedded hardware/software within products and assets.

The number and type of IoT devices, as well as the associated use cases for apps and services, grows exponentially within leading industry verticals. One of the critical success factors for IoT operation will be certain Operational Support Systems (OSS) for IoT such as IoT Device Management.

The need for IoT device management software is a rapidly building area of concern and opportunity. IoT Device Management encompasses device provisioning, administration, monitoring, and diagnostics important for trouble replication and corrective measures. Important IoT Device Management functions include Enrollment/Provisioning, Configuration/Association, Software Updates, and overall Management and Control. As IoT systems and networks grow in complexity and importance, there will be an increasingly urgent need within enterprise for IoT device management platforms and software.

This research examines IoT Device Management requirements and functionality as well as leading companies and solutions. The report evaluates market opportunities and challenges for IoT Device Management solutions across various industry verticals. The report includes forecasting for global and regional markets as well as potential across deployment types and sectors including automotive, manufacturing, smart cities, and more.

Select Report Findings:

IoT Device Management to be one of fastest growing areas for solution providers

Substantial market opportunity for PaaS and SaaS based IoT Device Management

Asia PAC IoT Device Management Systems in Smart Cities will reach \$247M by 2022

North America to lead IoT Device Management platform market, reaching \$958M by 2022

PaaS and SaaS based IoT Device Management solutions to be lead market, reaching \$3.1B by 2022

Report Benefits:

IoT Device Management forecasts 2017 - 2022

Learn about key device management functionality

Understand the benefits of each major deployment model

Identify leading industry verticals deploying device management

Identify important device management companies and solutions
Recognize the challenges and opportunities in managing IoT devices
Understand the role and importance of device management in IoT systems
Buy the report@<http://www.orbisresearch.com/contact/purchase/176923>

Target Audience:

Network operators

IoT solution providers

Cloud-based service providers

Device management providers

Network infrastructure providers

OSS/BSS and optimization companies

Companies in Report:

Advantech

Aeris

Allegro Software Development Corporation

Amplía Soluciones S.L.

ARM Ltd.

Bosch Software Innovations GmbH

Devicepilot

ETI Software Solutions

IBM

Microsoft

PTC

Particle

Proximity Inc. (Relayr)

SiteWhere LLC.

SmithMicro Software

Telit

Tibbo Systems

Wind River

WSO2

Xively (LogMeIn)

Zentri

About Us:

Orbis Research ([orbisresearch.com](http://www.orbisresearch.com)) is a single point aid for all your market research requirements. We have vast database of reports from the leading publishers and authors across the globe. We specialize in delivering customized reports as per the requirements of our clients. We have complete information about our publishers and hence are sure about the accuracy of the industries and verticals of their specialization. This helps our clients to map their needs and we produce the perfect required market research study for our clients.
