

Global Blockchain Technology and Solutions Market Analysis, Share, Trends and Forecast by 2022 - Market Research Report 2017

OrbisResearch.com has published new research report on "Blockchain Technology and Solutions: Market Outlook and Forecasts 2017-2022" to its database.

OrbisResearch.com has published new research report on "Blockchain Technology and Solutions: Market Outlook and Forecasts 2017-2022" to its database. Dallas, United States - April 19, 2017 /MarketersMedia/ -- Anticipated in use by up to 65% of enterprise by 2020, Blockchain technology represents a distributed ledger approach to authentication, clearing and settlement that is poised to rapidly move beyond the FinTech sector into many other areas including the Internet of Things (IoT). Blockchain solutions are not yet mainstream, but already making a big impact as the technology is highly disruptive in the banking and general financial services sector. Accordingly, leading incumbent banks are in various stages of development, testing, and deployment of the technology to enhance various applications including remittance management, smart contracts, identity management, asset trading, ownership management, digitization of physical assets, and many more.

Lessons learned in FinTech and traditional banking from applying a decentralized authentication, clearing and settlement approach via Blockchain will be applied towards many telecom and computing problems for the benefit of many industry verticals. IoT in particular is a very promising area as Mind Commerce anticipates that the technology will be one of the key means for authenticating and authorizing IoT transactions. We see Blockchain as a Service representing a key service offering for many market segments to introduce and ultimately adopt this approach as part of business operations.

This research examines the technology, leading companies, and solutions in the evolving Blockchain ecosystem. The report evaluates current and anticipated use cases for Blockchain and assesses the market potential globally, regionally, and segmented by deployment type and industry vertical for the period 2017 to 2022. All purchases of Mind Commerce reports includes time with an expert analyst who will help you link key findings in the report to the business issues you're addressing. This needs to be used within three months of purchasing the report.

Report Benefits:

Blockchain market forecasts 2017 to 2022

Understand Blockchain technology and solutions

Identify emerging Blockchain use cases and opportunities

Learn about how Blockchain will be used in different industries

Identify opportunities for Blockchain integration and operations

Target Audience:

Data services companies

Banking and FinTech industries

Network operators and service providers

Managed communication services companies

Telecom and computing infrastructure providers

About Us:

Orbis Research ([orbisresearch.com](http://www.orbisresearch.com)) is a single point aid for all your market research requirements. We have vast database of reports from the leading publishers and authors across the globe. We specialize in delivering customized reports as per the requirements of our clients. We have complete information about our publishers and hence are sure about the accuracy of the industries and verticals of their specialization. This helps our clients to map their needs and we produce the perfect required market research study for our clients.
