Global Aerospace Fasteners Market (\$ billion), 2016-2021

Geographically, North America would be the largest market for aerospace fasteners market and APAC is likely to be the fastest growing market due to the significant increase in the number of aircraft in the region. Next generation aircraft like A320, B787, B777X, and A380 constitute approx. 2.4 million to 3 million fasteners in an aircraft. The combined backlog of Boeing and Airbus as of today has an order book, of close to 12,000 aircraft, representing between eight and 10 years' production. Majority of backlogs are for A320 family aircraft and B737Max aircraft where fasteners are mainly used. Thus the demand for fasteners will significantly grow in the forecast period.
