

## **Reading Chiropractor & Osteopath Launches Free Back And Neck Pain Spinal Scan**

*Reflex Spinal Health releases information on how its new Free Spinal Health Check service will change things in the Chiropractic and Osteopathy space for the better. Further information can be found at <http://www.reflexspinalhealth.com>.*

Reflex Spinal Health releases information on how its new Free Spinal Health Check service will change things in the Chiropractic and Osteopathy space for the better. Further information can be found at <http://www.reflexspinalhealth.com>. Reading, United Kingdom - April 19, 2017 /PressCable/

Earlier today, Reflex Spinal Health announced the launch of its new Free Spinal Health Check service, set to go live Wednesday 19th April. For anyone with even a passing interest in the world of Chiropractic and Osteopathy, this new development will be worth paying attention to, as it's set to shake things up.

Currently, with even a passing glance, a person will notice that many people are unsure whether they should book in for a New Patient Consultation with either an osteopath or a chiropractor in Reading. The opportunity of a Free spinal health check gives anyone the chance to enter a spinal health centre and speak to one of the experienced clinical team. Spending time at this fabulous centre, the attention to excellent service and passion of the team stand out. The team aim to explain, educate and resolve the root cause of every condition. Clinic Director and senior chiropractor at Reflex Spinal Health, Andy Green, makes a point of saying "things are going to change when our Free Spinal Health Check service launches".

Andy Green continues... "Where you'll always see our competitors doing the same old thing, we can offer a 10-15 minute spinal scan with one of our team without any charge, and we will tell you whether you would benefit from booking in for a New Patient Consultation. If we cannot help you we will refer you to the appropriate specialist. We do this because our aim is to be available to as many people in our community as possible. Ultimately this is going to be a huge benefit to our patients because it will save them money, reduce uncertainty and allow them to meet an expert spinal health practitioner without committing to a full consultation in advance."

Reflex Spinal Health was established in September 2005. It has been thriving in Caversham, Reading for nearly 12 years. Asked to describe the centre, that offers chiropractic, osteopathy and massage therapy Andy Green said, "We are a passionate, dynamic spinal health team. Our desire is to inspire a vibrant tribe of chiropractic & osteopathic advocates to realise and enjoy the vitality of great health, to reach their full potential and feel alive! Many people are initially uncertain if they have never previously consulted either a chiropractor or osteopath. We help the vast majority of people to both feel, and function, much better."

Currently, the closest thing to Reflex Spinal Health's Free Spinal Health Check service are centres who can not offer the identical clinical experience, client satisfaction or bright and modern centre, but Reflex Spinal Health improved on this by making things very easy to speak to a practitioner. This alone is predicted to make Reflex Spinal Health's Free Spinal Health Check service more popular with customers in the Chiropractic and Osteopathy space, quickly.

Once again, the Free Spinal Health Check service is set to launch Wednesday 19th April. To find out more, the place to visit is <http://www.reflexspinalhealth.com>
