

Industrial Floor Mats Market to Grow at 4.15% CAGR during 2017 to 2021

One of the major factors hindering the growth of industrial floor mats market is emergence of interlock floors.

One of the major factors hindering the growth of industrial floor mats market is emergence of interlock floors. April 19, 2017 /MarketersMedia/ -- The industrial floor mats market report covers the present scenario and the growth prospects of the global market. To calculate the market size, the report considers the revenue generated from the sales of industrial floor mats at the manufacturer level.

Complete report on industrial floor mats market spread across 70 pages, analyzing 3 major companies and providing 38 data exhibits are now available at <http://www.reportsnreports.com/reports/958240-global-industrial-floor-mats-market-2017-2021.html>. The analysts forecast global industrial floor mats market to grow at a CAGR of 4.15% during the period 2017-2021. Industrial floor mats are used in several industries, which involve the chance of falls, spills, fatigue, and slips. Various types of industrial floor mats specific to tasks involving hazards are available in the market. There are two major types of industrial floor mats: entrance mats and ergonomic mats.

According to the industrial floor mats market report, one of the major drivers for this market is incorporation of multiple safety features in mats. Vendors offer industrial floor mats that increase productivity, improve hygiene and appearance, and decrease back and neck injuries. However, various other features of industrial floor mats such as slip and chemical resistance, anti-microbial, oil and grease resistance, and aesthetic appeal have enhanced product performance. These features have helped end-users select mats based on their requirement, which has influenced the market positively.
