WiseGuyReports.Com Publish a New Market Research Report On - "Construction Estimation Software 2017 Global Market Size, Status and Forecast to 2020". Pune, India - April 19, 2017 /MarketersMedia/ -- The analysts forecast the global construction estimation software market to grow at a CAGR of 10.16% during the period 2016-2020.

Construction estimation software is used to calculate the total cost of a construction project. Estimation software automates the designs obtained from manual spreadsheets and calculators. The introduction of tools facilitates and improves the speed and accuracy of the estimation process. Estimating software aids in improving a contractor's ability to compete with other bidders and accurately represent the actual cost of a project to clients, thereby enhancing productivity and bidding process.
