

## Healthcare Product Manufacturer Juvo Solutions Launches New Site

*Mobile-friendly new site is easy to navigate and full of information about company's shower seating and commodes, heavy-duty chairs, and other health-focused solutions, Juvo reports*

Mobile-friendly new site is easy to navigate and full of information about company's shower seating and commodes, heavy-duty chairs, and other health-focused solutions, Juvo reports

WELSHPOOL, Australia - April 20, 2017 /MarketersMedia/ -- Juvo Solutions announced the launch of the company's new website. The attractive, easy-to-use new site ( <https://juvo.com.au>) will help Juvo even better demonstrate its full line of shower chair and heavy duty seating products and accessories. With a mobile-friendly design that works perfectly on devices ranging from smartphones and tablets to laptops and desktop computers, the new site is even more accessible, as well.

The new Juvo website ( <https://juvo.com.au/healthcare/heavy-duty-bariatric-chair/> ) contains detailed information about all the company's products, including the brand-new Raywood bariatric chair. The newly launched site also hosts a number of brand-new shower commode documents aimed at affiliates, including a maintenance and service report form that will be helpful to many. As a leading designer, manufacturer, and supplier of shower chairs, heavy-duty seating, accessories, and other health-focused solutions, Juvo always strives to innovate in order to deliver products and service of even higher quality. The company's new website is a product of that drive and is online now.

"We're happy to announce that our new website is now online," said Juvo Solutions representative Ricardo Morren. "With so many products to offer, we're always looking for ways to help others learn about our healthcare seating, shower commodes, transfer tables, and other solutions. Our new website (<https://juvo.com.au/healthcare/shower-commode-chair/>) makes it even easier than before to come to up speed with anything from bariatric chair basics to in-depth details on particular products like our new Raywood chair. Thanks to a mobile-friendly design, the new site is even easy to browse when out and about."

In the United States alone, according to that country's Centers for Disease Control and Prevention, nearly a quarter of a million people each year are rushed to emergency rooms for care because of injuries sustained in the bathroom. Particularly among older people, the obese, and those with impaired mobility, routine usage of showers, baths, and toilets regularly leads to dangerous slips and falls.

Juvo is one of the world's leading providers of healthcare solutions that address issues like these and others. With products ranging from heavy-duty bariatric chairs designed to support 400 kilograms or more to shower commodes that greatly reduce the risk of slipping or falling, Juvo Solutions, through a global network of distributors, helps people worldwide live safer, healthier lives. The company's new website will make it even easier than before to learn about its innovative, high-quality products.

About Juvo Solutions:

Always innovating, Juvo Solutions designs and manufactures a wide range of shower chairs and commodes, bariatric seating, treatment and transfer tables, accessories, and other health-focused products.
