The coconut version targets dry, dehydrated skin and uses coconut pulp and vitamin E to nourish, soothe and promote long lasting hydration.

The exotic fruits pack uses pineapple and papaya enzymes, papain and bromelain to brighten dull, rough skin by eliminating dead cells. It also uses kiwi seeds as a natural and earth friendly alternative to plastic microbeads. The final mask is the red fruits version that harnesses potent antioxidants taken from cranberries, strawberries, raspberries and blackcurrants to protect the skin from free radicals.

All of the Youngevity Botanical Spa Delicious masks are peel off masks and are all formulated in Paris, using the highest quality ingredients. They are also available individually from the variety pack. For more information please visit the website on the link provided above.
