Café Nimrod was founded about 10 years ago by David Eyal and Ehud Segev. The Café is named after a brave soldier who gave everything out of love for his country. According to information published on the official Café Nimrod site, the restaurant brings the upper Galilee to Tel Aviv, with menus that are based on rural Galilee food. There's also an information desk for guests who are looking for guided tours in some of Galilee's most popular tourist destinations. The café claims to have very hospitable staff members who are passionate about what they do.

Over the last 5 years, the Café Nimrod brand has recorded massive growth, managing to construct at least 2 new branches in different parts of the country. This significant growth has been enabled by the restaurant's reputation for quality service, and unique offering. Some of their winning dishes include the Mushroom Falafel, the Special Lamb Kabab, and the health-boosting Founders Salad.
