

Pluto Green Tent Launches in Germany

The Pluto green outdoor shelter is now available in the German market

June 10, 2017 (FPRC) -- Tent World has introduced its wildly popular Pluto Green outdoor beach tent in the German market. This comes as the company works to establish itself as the go-to provider of outdoor shelters in the market. Over the last couple of months, Tent World introduced an extensive range of its release not only in Germany but also in other European markets such as the UK, Italy, and France.

Tent World is a major producer of beach and outdoor shelters. The company launched back in 2015 but has so far managed to flood the market with an extensive range spanning over 12 different outdoor shelters. Each of the company's products are named after a solar system planet. The largest tent in the lineup is called 'The Sun', while the smallest one is named 'Pluto'. Other outdoor tents by the company include Venus, Mars, Jupiter, Uranus, Neptune, and Pluto.

The Sun tent by Tent World is so large that it can accommodate a large group of up to 12 people. On the opposite end of the size spectrum is Pluto tents, which are so small that they can only be used by kids or toddlers. Pluto tents are also available in a variety of colors and styles so that parents can choose a color and design that's in line with their kid's preference.

According to Tent World, the Pluto Green outdoor beach tent is a must have for parents who have small kids or toddlers. This tent essentially makes it possible for parents to go to the beach without leaving their little ones behind or exposing them to unnecessary risk. The tent is built to shelter kids from elements of bad weather such as strong winds, unpredictable rain showers, and scorching hot sun. The Pluto Green tent comes in a calming and beautiful park green color that looks great against any backdrop. Tent World has said that it's including a free coloring book with all its Pluto green tents to keep kids occupied. The firm has also said that in addition to the beach, this tent is ideal for use at a camping site, picnicking location, public park, or just the private garden at home.

Ann Spencer, the brand manager at Tent World, said, "We are more than excited to launch our Pluto Green beach tent in the German market. This is an excellent tent to shelter kids and toddlers not only while at the beach but also in any other outdoor environments, including private gardens and parks. This shelter makes it easy for you to enjoy a light time while keeping your toddler safe from elements of bad weather. We are also including a free coloring book to keep your kids occupied while in this tent. Our customers can now obtain their Pluto Green tent online via Amazon.de."
