

## **New Unmanned Vehicle Industry Marketplace Launched**

*New marketplace for the unmanned vehicle industry / drone services industry launched to help customers and industry professionals find and connect with drone industry businesses and organizations.*

July 20, 2017 (FPRC) -- New Unmanned Vehicle Industry Business Services Marketplace Launched

To compliment its rapidly growing Internet directory DronesUAVUAS.com is pleased to announce the launch of a new marketplace for the unmanned vehicle industry / drone services industry. In addition to showcasing featured products and drone services offered by businesses listed in the directory this new b2b and b2c marketplace helps customers and industry professionals to find and connect with drone industry businesses.

Featuring links to all aspects of the drone industry including:

- Service providers offering drone services like aerial photography, precision agriculture, aerial survey and inspection, drone repairs
- Manufacturers of drone products and accessories for drones
- Drone commerce including retail and re-seller businesses
- Training providers, UAV drone flight school academies and ground school training
- Insurance industry and legal service specialists
- New and emerging drone industry and drone enterprise sectors as they evolve

For drone industry businesses the marketplace pages and business directory listing offer an outstanding opportunity to boost the online presence of a business by providing exceptional visibility and exposure to a large, growing internet and social media audience that is interested in the drones industry. Creating a business listing in the directory showcases the business and provides additional online recognition which helps to boost credibility and authenticity when viewed by potential customers. Fairly priced added value products like fire and forget featured business listings offer the best ROI and ensure that the business is seen in the marketplace directory and across connected social media sites.
