

Supremasea Shea Body Butter Launches in Germany

The Shea Body Butter by Supremasea is now available in Germany

August 19, 2017 (FPRC) -- Supremasea has launched one of its most popular products, the Shea Body Butter, in the German market. This comes at a time when the firm is looking to diversify its market presence. Over the last few months, Supremasea has introduced a number of its products in European markets such as the UK, Germany, Italy, and France.

Supremasea is a sub-brand by Thermalabs, one of the leading producers of cosmetics products in the world. Supremasea is Thermalabs division that's in charge of creating quality skin care products based on Dead Sea salts. In addition to Supremasea, other sub-brand by the company include Organic Healthcare, Air, and Tent World. Thermalabs Organic Healthcare is a more recent healthcare operation where the firm creates health products based on 100% bio-organic ingredients. Organic Healthcare is based in Galilee, Israel, and relies on over 1000 years of ancient healthcare knowledge from the Rambam (a preeminent Jewish scholar and physician). Thermalabs Air is the branch in charge of producing airbrushing machines and airbrushing accessories, while Tent World makes beach and outdoor tents for the company.

Supremasea was launched back in 2015 and started out with a pilot release known as Tan Enhancer. This was a special purpose lotion that was designed to enhance that radiant glow after a tan. Tan Enhancer featured a special blend of Dead Sea salts and conventional skin care ingredients such as Vitamin E and Vitamin K. In addition to enhancing a tan, it also moisturized and protected the skin from free radicals and other environmental pollutants. Other products by Supremasea include the Lavender and vanilla patchouli body scrub lotions. Both of these are exfoliation aids that are designed from organic ingredients for increased safety and efficiency.

The Shea Body Butter is the most recent release by Supremasea. This is a triple moisture lotion that's designed to enrich and protect the skin. Formulated from Dead Sea salts, Shea Butter, Sweet Almond Oils, Coconut and Avocado oils, this product has healing properties. According to Supremasea brand manager Kristina Meyers, it can help for individuals who are suffering from wrinkles, acne, blemishes, and other common skin care problems. The lotion works on all skin types and is ideal for use by men and women.

"We are delighted to launch one of our high flying products, the Shea Body Butter, in the German market. This move comes at a time when we're looking to increase our market presence in the European region. The Shea Body Butter is an excellent product that helps with acne, blemishes, dark spots, and other skin care problems. Customers in Germany can now start benefiting from this product by obtaining it online at Amazon.de. Stay tuned to Supremasea for more," said Ms. Meyers.
