

Supremasea's Shea Body Butter Launches in the French Market

The Shea Body Butter lotion by Supremasea has launched in the French market

August 25, 2017 (FPRC) -- One of the most popular releases by Supremasea, the Shea Body Butter, has launched in the French market. This comes barely two weeks after the firm announced that it was looking to introduce its entire product portfolio in the French market. Over the last few months, Supremasea has launched its products in the UK, Germany, Italy, Spain, and other European markets. The company is apparently looking to establish itself as the go-to provider of quality skincare products in the world.

Supremasea is a sub-brand of Thermalabs, one of the world's leading producers of self-tanner, tanning accessories, and other cosmetics products. Thermalabs is headquartered in New York City, but operates a number of factory locations in other parts of the world. The company's largest production facility is based in Galilee, Israel. In addition to Supremasea, other sub-brands that are owned by Thermalabs include Tent World, Thermalabs Air, and Thermalabs Organic Healthcare. Tent World is the firm's branch that produces beach and outdoor tents, while Thermalabs Air is the company's division that's in charge with producing airbrushing machines and airbrushing accessories. Thermalabs Organic Healthcare, on the other hand, is the company's most recent sub-brand that's based in Galilee, Israel. Organic Healthcare creates unique health products based on 100% bio-organic ingredients. The firm relies on over 1000 years of ancient healthcare knowledge borrowed from the Rambam (a preeminent Jewish scholar and physician) to create products that can restore some of the energy, vigor, and health that human ancestors enjoyed.

The Shea Body Butter is Supremasea's fourth and last launch. Earlier releases include Tan Enhancer, the Vanilla Patchouli body scrub, and the Lavender body scrub. Both the Lavender and Vanilla Patchouli body scrubs are exfoliating products that are designed to make the skin soft and healthy. Tan Enhancer, Supremasea's pilot lotion, is a protective lotion that maintains that radiant glow after a tan. It contains Vitamin E, Dead Sea salts, and other ingredients that help keep the skin safe from environment pollutants and free radicals.

Shea Body Butter is perhaps the most popular release by Supremasea. This is a triple moisture lotion that's created from a special blend of Shea Butter, Dead Sea Salts, Sweet Almond Oils, Avocado Oils, and Coconut Oils. According to Supremasea, this lotion has healing properties and is recommended for individuals who might be suffering from skin problems such as wrinkles, blemishes, acne, dry skin, and more.

Kristina Meyers, Supremasea's brand manager, has said that customers in France can now obtain this product online via Amazon.fr.
