

## **Young Entrepreneur from Denmark Wants to Conquer the World with Her New and Creative Book Series**

*Nhi Do is a young Danish entrepreneur, which she proudly shows off in her new series of books. Story No. 9 is a global novelty, as a new an innovative gift concept which will officially be launched worldwide on November 11, 2017.*

November 11, 2017 (FPRC) -- Story No. 9 is the first company in the world to specialize in personalized gift books for young adults, with its very own animation character and book series. The brain behind the creative entrepreneurial project is Nhi Do, who got the idea in October 2014 at the age of 25, shortly after graduating from Cph Business in Copenhagen. At that time, Nhi could not find personal gift books on the Internet aimed at other youngsters at her own age, this was because most personal books are only made for children. She felt that the market forgot her generation as a potential segment, and it was then a combination of an artistic background, stubbornness and a business background which led her to illustrating her own book series to cover a huge gap in the world market.

"The project is more than just books - it's an artistic universe and a personal dream to create something extraordinary," explains Nhi.

It's a woman with a computer, who has worked day and night towards her goal of realizing a business idea for 3 years. She started from scratch as a student - which led to one challenge after another.

Today, Story No. 9 consists of an international team of artisans and collaborators worldwide who have a solid and global distribution network that gives access to millions of young adults worldwide. She wishes to be recognized as a Danish company and to be associated with high quality, personal touch and creativity. She is currently searching for sponsors who will cover the cost of a short animated film to gain global attention. But it's neither money nor fame that is the drive behind her big vision.

"Imagine being able to develop creatively while applying my practical and professional experience to accomplishing something that is greater than myself. That's the dream! Even though I'm economically stretched and sleeping on my friend's sofas, I wake up everyday and feel happy and proud of my work. I love my work and I am not afraid to fail," says Nhi, who since 2013 has received great inspiration from foreign student exchanges in Seoul, London and Bangkok. She has previously struggled with other entrepreneurial projects, but this does not deter her from her dream.

Story No. 9's creative gift books will be launched worldwide on November 11, 2017.
