CertExams.com Updates A+ Certficiation Practice Tests

CertExams.com, a leading exam simulators provider, released an update to Comptia A+ certification practice tests to include additional questions, and a couple of bug fixes.

January 22, 2018 (FPRC) -- CertExams.com recently updated Comptia® A+ Certfication practice tests to include additional features. The update to comptia aplus exam includes update to A+ Essentials, and A+ Practical Application. A couple of bugs that had been reported under specific Windows configuration were fixed. Additionally, a feedback mechanism has been introduced, wherein, the user could report any bug while installing/running the software at the click of a button. It is expected to improve product quality across several Windows platforms. As on date, the software is compatible with Windows 32-bit and 64-bit operating systems, including Windows 7, 8.0/8.1, and Windows 10. Android and IOS (for iPhone) versions are available.

The exam simulator software is organized into two parts, one is that of exam engine and the other is exam module. Though both have been combined into a single executable, the exam engine provides ability to download any other test modules and install the same without having to leave the exam environment. Important features of the exam module include support for several question types including MCQs, Drag-n-drop, Hotspot, and Match.

CompTIA A+ Certification may be achieved by passing two constituent exams, 1. A+ Essentials exam, and 2. A+ Practical Application exam. The exams are conducted by View/Prometric. The practice tests, offered by CertExams.com cover exam topics and provide timed environment as seen in the actual exam. Other features of the test engine include Learn and Exam modes, detailed stats, bookmarking, and retake of exam by choosing any one of the options among bookmarked, wrong answers, or complete set of questions. Detailed stats are available for review.

Other resource available include Aplus Labsim (A+ Labsim) that provides dozens of lab exercises for thorough hands-on practice. You may check out the aplus labs by going to the product home page.
