

SimulationExams.com Releases New Security+ Practice Tests

SimulationExams.com, an exam and network sims provider, recently released Comptia® Security+® practice tests.

July 12, 2018 (FPRC) -- The practice tests for Comptia® Security+® (Exam Code SY0-501) conforms to the latest exam objectives and cover the same extensively. The security plus exam objectives include the following:

- 1.0 Threats, Attacks and Vulnerabilities in computers
- 2.0 Technologies and Tools for identifying threats and attacks
- 3.0 Architecture and Design
- 4.0 User and resource identity and access Management
- 5.0 Risk assessment and management
- 6.0 Cryptography and PKI standards

The test engine features the following:

1. An integrated test engine which enables a user to download, install/reinstall, and remove any available tests,
2. Verify and download latest updates and patches, allowing to check for the same from within the exam environment,
3. Download/Install/Uninstall any test module from within the ITE (short for Integrated Test Environment)
4. Ability to provide question feedback on any given question while the test is in progress.
5. Immediate online activation using web-based interface with manual backup option

With the ability to verify for any revision updates, candidates can download and update any test to the latest version with minimum effort.

The CompTIA secplus practice tests offered by SimulationExams includes 400+ questions with detailed explanations. The question database conforms to the exam objectives and provides the candidate with simulated exam environment similar to that of actual exam.

Other practice tests offered by SimulationExams.com include the following:

- a. A+ Certification
- b. CCNA Certification
- c. CCNP Certification,
- d. Network+Certification, and others.

The new SY0-501 includes questions for thoroughly preparing a candidate for the exam.

The test engine is .net compliant, and thoroughly tested in Windows 7/8/8.1 and Windows 10 platforms. High speed file downloads are made available using cloud platform.

Security+ Cert practice exam is also available for Android and iOS mobile apps, please check out security plus app for download and install.
