

Certexams.com CCNA Practice Tests for 200-125

The current version of CCNA, 200-125 is retiring soon and the new exam 200-301 will be effective from 24th Feb 2020. Check out our practice tests and online labs.

January 30, 2020 (FPRC) -- Certexams.com is working on the new version of practice tests, CCNA 200-301 and are expected to be made available by the due date, i.e. 24th Feb 2020. As you might be aware, Cisco is retiring the current version of CCNA exam 200-125 by 23rd Feb 2020 and the new version will have an exam code 200-301.

There are significant changes between the old version of the exam and the new version of the exam. Few of these changes are mentioned below:

1. The TCP/IP model theory is truncated to a large extent
2. RIP v2, EIGRP, and OSPF v3 have been taken out of the syllabus.
3. Wireless Controllers (Cisco WLC) have been included. Though the command line interface part is limited, the GUI configuration has been included extensively.
4. DNA, short for Cisco Digital Network Architecture has been included. DNA is Cisco's effort towards Open Network Architecture.

CertExams.com recommends that the candidates, who have already started preparing for CCNA (200-125) or already completed CCENT to complete the certification before the deadline. Otherwise, the new syllabus includes such topics as WLC, DNA, and Security which needs significant time and effort before giving the exam.

Certexams.com resources for CCNA 200-125 are listed below:

1. CCNA Practice Exams 200-125
2. CCNA Network Simulator
3. CCNA Cheat Sheets (200-125)
4. Online Labs for CCNA

Please check out the official web site for most recent updates on the new exam objectives.

Other products offered by CertExams.com include exam simulator software for Cisco CCNA, CCNP, Juniper Netsim for JNCIA, CCNA Network Simulator, and several others. Free practice exam questions, and exam notes are available.
