

## **Luxury Rentals Launches New Website for Holiday Rentals on the Costa Del Sol**

*Holiday rental company Luxury Rental announces the launch of its new website containing high-end holiday rental villas and apartments on the Costa del Sol in Spain.*

October 27, 2020 (FPRC) -- Holiday rental company Luxury Rentals today launched their new website. It offers a portfolio of high-end holiday villas and apartments on the Spanish Costa del Sol.

'Right now people are first and foremost looking for safe destinations and safe places to spend their holidays,' said listings director Martin Rhodes. 'The Costa del Sol is a destination where Covid-19 incidence is relatively low. Safety regulations are strictly observed and there's an excellent public health system in place. In addition, we offer our clients a choice of villas and apartments that meet the highest health and hygiene standards. Individuals, families or groups can thus enjoy a safe and relaxed holiday at one of Europe's most popular destinations.'

Marbella/Puerto Banus are two Costa del Sol locations that have a solid reputation for luxury rental properties, but the same can not be said for towns like Torremolinos, Benalmadena and Fuengirola. However, there are plenty of beautiful properties for rent in choice locations situated in these communities. Luxury Rentals strives to bring these to the attention of European travelers and thus demonstrate that they have many more options for a great holiday on the Costa del Sol.

Luxury Rentals is a Malaga-based holiday rental and property management company with more than 20 years experience on the Costa del Sol. Our aim is to provide guaranteed safe and top-quality holiday rentals and superior services to discerning clients. The Costa del Sol holiday rentals advertised on the website are carefully inspected and go through a rigorous selection process before being accepted.
